Re: Arisleydes Fuentes v. Miami Dade County School Board, Case No. 17-014517-CA-30

Dear Ms. Kammer,

Please be advised that we have dropped our lawsuit against WPLG Channel 10. We have now verified that the television station simply provided access to publicly available information it received from the School Board, and we are grateful that the station assisted us in verifying this important factor. The station did nothing wrong and it was not the station that identified our client, a juvenile victim of a sexual offense. We appreciate the opportunity to work with the station and we are sensitive to the station's efforts and responsibilities in informing the community on issues of public importance, the critical value of the First Amendment principles implicated in this scenario, and the excellent job they do in this regard. We apologize for the misunderstanding and thank WPLG for accepting our apologies. Thank you for your professional courtesies and do not hesitate to call if you have any additional questions or concerns.

Sincerely,

Luke Lirot
